

Janez Urbas

Technical Manager

AMA Laser AB

<http://www.amalaser.com>

Bilateral Meetings

- (12.00p.m. - 4.00p.m.)

Description

Developing and production of laser instruments and devices for construction and agriculture industry. Specialist for laser land leveling in agriculture.

Organization Type

Producer, Other, Company

Organization Size

1-10

Founding Year

1975

Email

janez@amalaser.com

Country

Sweden

City

Skogås, Fräsarvägen 7 [Google map](#)

Areas of Activities

AGRICULTURAL INDUSTRY

Offer

AMA Laser agriculture solutions

AMA Lasers is an independent manufacturer of lasers instruments.

Our instruments are built to the highest quality, robust and reliable. Built for the most demanding applications.

AMA Lasers started distributing construction lasers in 1975. The first AMA-designed instruments were introduced around 1980.

Since mid 1990 we start distribution our instruments for agriculture in Egypt for rice cultivation. Today more than half our business in agriculture. AMA Laser is specialized for precision agriculture (gps, gis) and laser land leveling

equipment.

Laser land levelling is essentially a water-saving technology as it uses scarce groundwater optimally by ensuring even coverage. Compared to traditionally levelled land, a laser levelled farm minimises run-off and water-logging ensuring that farmers use just as much water they need in the best possible way.

Keywords: laser land leveling precision agriculture smart irrigation reduce irrigation water usage
