### Organization Type

Producer, Company

### Email

[info@ogracek.si](mailto:info@ogracek.si)

### Country

Slovenia

### City

Vaneča, Vaneča 81 A [Google map](#)

### Areas of Activities

## FOOD INDUSTRY

## AGRICULTURAL INDUSTRY

### Offer

### activated biochar

We created a product called ACTIVATED BIOCHAR, that is used as a soil improver. It contains nutrients, effective microorganisms and minerals. All of these are bound to biochar.

By doing so we make sure the nutrients are released when needed, but are not washed away by watering or rain.

This unique ingredient gives plants everything that they need for growth and all the nutrients and trace elements needed for their health. The activated biochar also improves the physical and chemical properties of the soil. It modulates the pH, water holding capacity, cationic exchange capacity...

Keywords: biochar activated biochar terra preta gardening permaculture nutrient dense food

### Cooperation Offered

1. License agreement
2. Manufacturing agreement

#### **Cooperation Requested**

1. Sales / Distribution
