Bilateral Meetings

- (12.00p.m. - 4.00p.m.)

Description

Company TPGozd has been established in 2006. Since its beginnings we have become the leading provider for wood cutting and transportation in Slovenia. Gradually we have also expanded our offer. Today we cover a whole range from forestry trailers and cranes, processing solutions and a complete variety of protective equipment. We can satisfy both small independent foresters as larger forestry companies. From year one our flagship have been Palms forestry trailers and cranes. Since 2006 we sold more than 600 trailers and cranes in Slovenia and the Balcans thus making us the leading brand and provider of forestry trailers and cranes in the Republic of Slovenia. Our products are available in our stores in Ljubljana, Kranj and Selnica ob Dravi and also at various resellers all over Slovenia and abroad. We are also constantly present at different fairs and wood-cutting competitions with our mobile store.
