Testimonials

When I joined SNCC as a member in 2013 after the chamber was established, I remember thinking and reflecting on why one would join. Since then I never regretted the decision for a moment. SNCC membership has been a process of discovery for us. Entering Nigerian market, meeting new people, establishing partnership and doing projects has been a worthwhile venture. I would like to believe that we made a contribution. But I do also acknowledge that the returns for us have been larger than what we have given. I must say that we would not have gained an insight into doing business in Nigeria and how things function there without SNCC. SNCC is a great organization and recommended.

Our experience with the Slovenia - Nigerian chamber of commerce is very positive. We are a member since the very beginning and we can say it has been an interesting and fruitful cooperation. The almost infinite possibilities of the Nigerian market are very unfamiliar as sometimes even intimidating for a Slovenian businessmen, but through Slovenia - Nigerian Chamber, it becomes almost easy to navigate through Nigerian business habits."
